REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1, and 3-23 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 1, and 3-8, the prior art of record does not teach an adaptive notch filter connected to the demodulator, wherein coefficients of the adaptive notch filter are adjusted to suppress noise on the upstream channel sensed during the idle slots. As to claims 9-11, the prior art of record does not teach a filter connected to the demodulator, the notch filter having coefficients that are adjustable to cancel noise applied to the demodulator; a media access controller (MAC) that processes binary data and generates for downstream transmission MAP messages that assign time slots in which cable modems may transmit signal bursts on the upstream channel. As to claims 12-17, the prior art of record does not teach compensating for the monitored conditions on the upstream channel; and receiving at the CMTS signal bursts on the upstream channel after such compensation.

As to claims 18-23, the prior art of record does not teach compensating for noise on an upstream channel; receiving on the compensated upstream channel a ranging

signal from one of the cable modems; transmitting the adjusted coefficients on a downstream channel to the cable modem for the purpose of pre-equalization of the upstream channel. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Boakye whose telephone number is (571) 272-3183. The examiner can normally be reached on M-F from 8:30am to 6:00PM.
